**REPLY TO RESTRICTION REQUIREMENT**

Sir:

In reply to the Restriction Requirement dated September 9, 2005, applicants hereby elect Group I (i.e., at least claims 1-10, 12-21, 23, 25-28, 30-32 and 66-71), with traverse, for prosecution on the merits. At least independent claim 1 is believed to be generic to both groups of claims.

The Patent Office communication merely asserts that Group I is directed to a plasma display with sustain pulses having different edges and that Group II is directed to a plasma display with sustain pulses having different rising/falling time. Applicants respectfully submit that the subject matter of these claims is so sufficiently related that they should be examined in a single application. Applicants further believe that a similar search will be performed for both the claims of Group I and the claims of Group II. For example, independent claim 1 is a generic claim to the subject matter of both Group I and Group II. Applicants respectfully request that the restriction requirement should be withdrawn.

It is respectfully submitted that the subject matter of both groups of claims is sufficiently related that a thorough search for the subject matter of one of the groups of claims would encompass a search for the other group of claims. Thus, it is respectfully submitted that the search and examination of the entire application could be made without serious burden. See MPEP §803 in which it states that "if the search and examination of an entire application can be made without serious burden, the Examiner must examine it on the merits, even though it includes claims to distinct or independent inventions." It is respectfully submitted that this policy should apply in the present application in order to avoid unnecessary delay and expense to applicants and duplicative examination by the U.S. Patent and Trademark Office.

If the Examiner believes that any additional changes would place the application in better condition for allowance, the Examiner is invited to contact the undersigned attorney, David C. Oren, at the telephone number listed below.
